

OSSmosis Call Center - Queue Threshold Profiles

Queue Threshold Profiles

Queue Threshold Profiles are assigned to Call Center Queues and will provide yellow and red visual indicators when key queue metrics are not met in the Web Supervisor and Agent dashboards.

Creating a Queue Threshold Profile

Once a profile has been created and assigned to queues, the profile cannot be deleted until all queues have been removed from the profile. The profile can be modified while assigned to queues.

1. Select Queue Threshold Profiles from the OSSmosis Call Center banner.

2. Enter in the name of the new queue threshold profile under "Create New Profile"

The image shows a form titled 'Queue Threshold Profiles' with the subtitle 'Configure queue alerts for Supervisor Dashboard'. It features a 'Profile' dropdown menu with 'Create New Profile' selected. Below this is a text input field for 'New Profile Name' containing the text 'Sales'. A '5/30' character count is visible at the bottom right of the input field.

3. Enter in the desired values for the statistics and thresholds. Not all statistics or threshold levels need a value in order to create a profile.

The image shows a detailed configuration form for 'Queue Threshold Profiles'. It includes a sidebar with a profile dropdown set to 'Sales' and an 'Edit Profile Name' field. The main area contains a table with columns for 'Statistic Name', 'Yellow Threshold', and 'Red Threshold'.

Statistic Name	Yellow Threshold	Red Threshold
Current Calls in Queue	Number of calls 2	Number of calls 5
Current Longest Waiting Call	01 : 00	01 : 30
Estimated Wait Time	mm : ss	01 : 00
Average Handling Time	02 : 30	03 : 30
Average Speed of Answer	mm : ss	mm : ss

4. Select the *Actions Icon* and then the *Save Icon*

Assigning a Queue Threshold Profile

1. Select the Queue Threshold Profile from the profile drop down
2. Select the *Queue Icon* in the upper right hand corner of the threshold page.

Sales

5/30

Statistic Name	Yellow Threshold	Red Threshold
Current Calls in Queue	Number of calls 2	Number of calls 5
Current Longest Waiting Call	01 : 00	01 : 30
Estimated Wait Time	mm : ss	01 : 00
Average Handling Time	02 : 30	03 : 30
Average Speed of Answer	mm : ss	mm : ss

3. Select the *Add Icon* to begin adding queues.

4. Locate queues in the advanced search by Call Center, Location, Department or Type. Once all agents have been selected, Save.

The 'Call Centers Search' dialog box allows users to filter call centers. It features a search bar at the top. Below it, 'Search Criteria' includes radio buttons for 'Call Center' (selected), 'Location', 'Department', and 'Type'. To the right, 'Filtering by:' shows a list of checkboxes: 'Select All', 'Billing OF' (checked), 'Shannon Basic', 'Sales OF' (checked), 'Premium Test - Liz Queue', 'Billing' (checked), 'Test Queue JJ Premium', '11 Load Testing', '12 Load Testing', '13 Load Testing', '14 Load Testing', and 'LizTest Premium'. At the bottom are 'CANCEL', 'RESET', and 'SAVE' buttons.

5. Once saved, the queues will appear on the *Assigned Call Centers* screen for that Queue Threshold Profile

Assigned Call Centers			
Manage Call Centers assigned to Sales			
Billing		Premium	
Billing OF		Premium	
Sales OF		Premium	

6. To remove or replace the Queue Threshold from the queue select *Options* and then choose *Change Queue Profile* or *Remove Queue Profile*:

The 'Change Queue Profile' dialog box contains two buttons: 'Change Queue Profile' and 'Remove Queue Profile'.

- *Change Queue Profile*: From the profile drop down select the new Queue Threshold profile to assign to the queue and select Save.

The 'Change Profile' dialog box is titled 'Change the Queue Threshold Profile for Billing'. It features a 'Profile' dropdown menu with the following options: 'Liz Fox Test Profile', 'Premium Test', 'Customer Service', 'SalesOF', 'Billing', and 'Sales'.

- *Remove Queue Profile:* Remove Queue Profile will delete the queue from the profile and it will no longer be assigned to any active Queue Threshold Profile
