

Teams - How To Guides

TEAMS VOICE

Evolve IP delivers an enterprise PBX with PSTN dial tone and advanced features, contact center functionalities, project management and 24x7x365 U.S based support integrated with Microsoft Teams. Leveraging two world-class platforms with analyst-acclaimed intellectual property enables us to deploy flexible, purpose-built business collaboration experiences that are designed to meet the unique needs of your business' environment and dramatically improve your associates' productivity.

The following **How To Guides** provide general instructions on common use cases, frequently asked scenarios, and method of procedures that end users encounter in working with the Evolve

Teams Voice solution.
