

Billing Request

In order to provide you with the best possible service, Evolve IP continues to simplify the way we work with our clients with the introduction of the *Evolve IP Help Center*, your one-stop-shop for submitting requests and making inquiries about Evolve IP products and services. Each week we will be introducing you to a different aspect of the Help Center, and this week our focus is on *Billing Requests*.

Billing Requests is where you go to ask questions related to your invoice or submit billing disputes. Simply click on the Billing Request tile and let us know what organization you're with, provide a description of your billing inquiry or billing dispute, and one of our Billing Associates will field your request and come back to you with an answer or a request for additional information so we can better serve you.
