	Frame Specific		campaign based upon	Destination, Handling Time
	Statistics Report		the time frame	
6.03	Campaign	Summary	Summary results of a	Succeeded, Failed,
	Inspection Report		campaign	Handled, No Answer,
				Answering Machine, Fax
				Tone, Wrong Destination,
				Handling Time
6.04	Completed	Detail	Detailed results of every	Shows Destination, End
	Callback		callback attempt	State, State of every
	Interaction Report			Attempt, Date/Time

1.7 Customer Contact Center Reports:

Report Number	Title	Туре	Summary	Contents
7.01	Customer Experience Report	Summary	High-level report used by leadership inside and outside of the call center to gauge the overall performance of the contact center in meeting the	Shows high level metrics broken out by BP and interaction type.
7.02	Customer Experience Trends	Summary	customer's needs. High-level report used by leadership inside and outside of the call center to gauge the contact center trends.	Graphical trend analysis of inbound volume, AHT, SL, and answer rate.
7.03	Contact Center Performance Report	Summary	Detailed report used by the contact center leadership to gauge their success and identify areas of opportunity.	Shows all key metrics broken out by BP and interaction type.

1.8 Call Reports:

Report Number	Title	Туре	Summary	Contents
8.01	Calls Performance	Summary	Provides BP summary	Inbound, Queued,
	by BP and		of call interactions only	Answered, Answer Rate
	Destinations		with results broken out	Abandoned, Longest Wait,
			annually, monthly,	Callbacks, Avg Talk Time,
			daily, hourly, and 15	Avg Speed of Answer, Avg
			min intervals	Wrap Up Time, Overflow,
				Transferred

2 Overview of Standard Reports

2.1 Agent Management Reports

Report 1.01 - Detailed Agent Activity

Fields:

- Shift ID
- Agent Name
- Shift Login Time
- Shift Logout Time
- Total Login Time
- Time in Mode

Report 1.02 - Agent Detailed Alerts

- Start Time
- End Time
- Duration

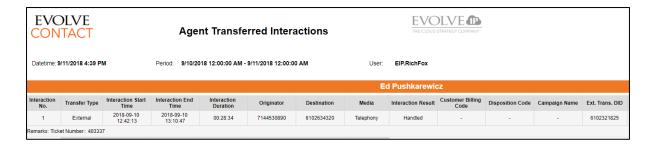

- Severity
- Value
- Agent Name
- Counter

Report 1.03 - Agent Transferred Interactions

- Transfer Type
- Interaction Start Time
- Interaction End Time
- Interaction Duration
- Originator
- Destination
- Media
- Interaction Result
- Customer Billing Code

- Disposition Code
- Campaign Name
- External Transfer DID
- DNC
- Telephony Time (In)
- Telephony Time (Out)
- Telephony Time (Ex. Agent)
- Segment Details

Report 1.04 – Agents Break

- Agent Name
- Total Break Time
- Total Paid Time
- Paid %

- Total Non-Paid Time
- Non-Paid %
- Break Details

Agent Breaks Report

Datetime: 9/11/2018 4:28 PM Period: 9/2/2018 12:00:00 AM - 9/9/2018 12:00:00 AM User: EIP.RichFox

Agent Name	Total Break Time	Total Paid	Paid %	Total non- paid	Non-paid %

Report 1.06 – Agent Staffing

- Main & sub time slice
- Total Online the number of agents that logged in during the specified time period
- Total Available the number of agents that entered a Ready state during the specified time period
- Occupancy Pct the cumulative Occupancy of the Available agents. This
 is calculated by dividing Busy Time by the sum of (Busy Time + Ready
 Time)

2.2 Agent Performance Reports

Report 2.01 - Detailed Agent Interactions

Parameters:

- Customer Database source database
- Manual Start Date
- Manual End Date
- Period
- Calculated Start Period
- Agents
- Media Type
- Group By
- Direction
- Disposition Codes
- Enable Pagination

- **Time Zone** customer's time zone by Default
- Display Language
- Calculated End Period
- Interaction Types
- Show Remarks checked value to include remarks
- Transferred Interactions Only checked valued to show only transferred interactions
- Include Archived Data checked value to include archived data
- Include CRM Data adds the First Name and Last Name fields from the ECS CRM

- Agent agent name
- Sequence number of sequence in current dataset
- Start Time start time of interaction
- End Time end time of interaction
- Interaction Type interaction type
- Origin interaction origin
- Destination destination of interaction
- Business Process business process in interaction

- Demand Demand(s) assigned to the interaction
- Disposition Code disposition code
- Call Time duration of interaction
- Agent Handling Time time handled by an agent
- Wrap-up Time wrap-up time
- External Number Time external consult time (when the Agent consulted an external number)
- External Transferred DID –
 external number, if interaction
 was ended by transferring to an
 external number

 Remarks – remarks of interactions

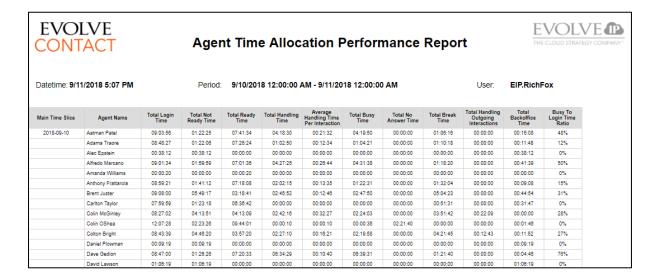

Report 2.02 - Agent Time Allocation Performance

Fields:

- Main Time Slice
- Agent Name
- Total Login Time
- Total Not Ready Time
- Total Ready Time
- Total Handling Time
- Average Handling Time Per Interaction

- Total Busy Time
- Total No Answer Time
- Total Break Time
- Total Handling Outgoing Interactions
- Total Back office Time
- Busy To Login Time Ratio

Report 2.03 - Agent Scoring

Fields:

• Main Time Slice

Agent Name

- Total Handled (Incoming & Outgoing)
- Total Answered
- Business Process Rejected
- Total Missed
- Total Transferred
- Total Consult

- Total Answered as Consult
- Total Outgoing External
- Total Outgoing Internal
- Total Outgoing Private
- Total Incoming Private

2.4 Business Process Interaction Reports

Report 4.01 - Detailed Business Entity

Parameters:

- Customer Database source database
- Manual Start Date
- Manual End Date
- Period
- Calculated Start Period
- Interaction Type
- Media Type
- Interaction Results
- Disposition Codes
- Demands
- Include Archived Data checked value to include archived data
- Group By DDLB

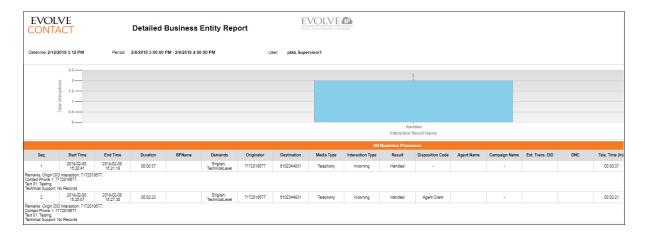

Fields:

• **Sequence** – simple enumeration for interactions in the result set

- **Time Zone** customer's time zone by Default
- Display Language
- Calculated End Period
- Business Process Name multivalue parameter
- Agent Name
- Show Only Interactions with Remarks
- Show Interaction Segments
- Only Interactions Ended in "Do Not Call" – checked value to show only interactions that ended in "Do Not Call"
- Enable Pagination
- Start Time
- End Time

- Duration
- Business Process Name
- Demands
- Originator
- Destination
- Media Type
- Interaction Type
- Result
- Disposition Code
- Agent Name
- Campaign Name
- External Transfer DID external number, if Interaction was ended

- by transferring to an external number
- DNC Ended in "Do Not Call" request
- Telephony Time Incoming
- Telephony Time Outgoing
- Telephony Time external agent time (telephony time where agent used external terminal, not the built in softphone)
- Telephony Total Usage Time
- Hold Time hold time before an agent handling time

Report 4.02 - Destination Trace

Parameters:

- Customer Database source database
- Manual Start Date
- Manual End Date
- Period
- Calculated Start Period
- Disposition Codes
- Origin/Destination

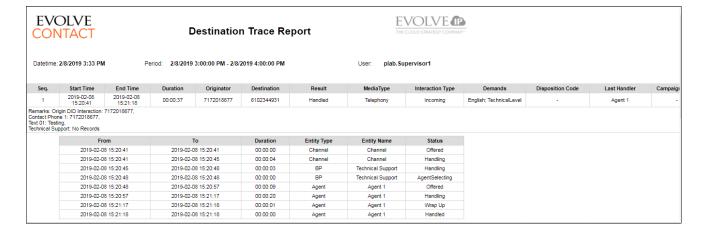

- Remark or part of remark
- Enable Pagination
- Time Zone
- Display Language
- Calculated End Period
- Demands
- Show Details
- Include Telephony Usage Data

 Include Archived Data – checked value to include archived data

Report 5.02 - Business Process Interaction Performance

Parameters:

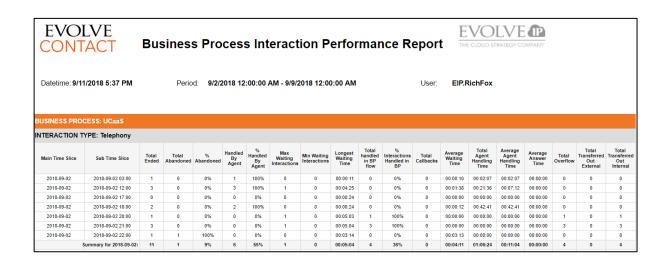

- Customer Database source database
- **Time Zone** customer's time zone by Default
- Manual Start Date
- Manual End Date
- Period
- Display Language
- Calculated Start Period
- Calculated End Period

- Business Process
- Interaction Type
- Main Time Slice date
- Sub Time Slice Time
- Total Ended total number of interactions arrived at the BP
- Total Abandoned total number of interactions abandoned by customers
- % Abandoned percent of abandoned interactions from the total ended

- Business Process multi-value parameter
- Interaction Type(s) multi-value parameter
- Main Table Accumulated By group field for the main section
- Sub-table Accumulated By group field for the subsection
- Include Archived Data checked value to include archived data
- Enable Pagination
- Handled by agent total number of interactions that were accepted/answered and handled by BP agents
- % Handled by Agent –
 percent of the handled
 interactions from the
 total ended
- Max Waiting Interactions max number of simultaneous interactions that were waiting in queue for an available agent
- Min Waiting Interactions minimum number of

- simultaneous interactions that were waiting in queue for an available agent
- Longest Waiting Time longest waiting time of interaction in agents' queue until it was answered by the agent or abandoned by the customer
- Total Handled in the BP total number of interactions that were handled in the BP flow prior to arrival to the BP agents (transferred out – voicemail, callback requests, disconnected by customers prior to arrival to agents queue, etc)
- % Interactions Handled in BP percent of interactions handled in BP flow from the total ended
- Total Callbacks total number of callback interactions arrived at the BP
- Average Waiting Time average customer waiting time in queue for an available agent a

- Total Agent Handling Time total duration of all customers' interactions with BP agents
- Average Agent Handling Time average duration of customer interaction with BP agent
- Average Answer Time average time of customer waiting time in queue until it was answered by an agent
- Total Overflow total number of waiting interactions that reached longest waiting time threshold
- Total Transferred Out External –
 total number of interactions that
 were transferred out by the BP
 flow or by BP agents to some
 external number (transfer to
 voicemail or branch office)
- Total Transferred Out Internal total number of interactions that were transferred out by BP flow or by BP agents to some internal contact center entity (transfer to another BP, agent, callback generation etc)

Report 5.03 - Business Process Callback Performance

Parameters:

- Counter

Report 5.05 – Queue Interval Summary Report

Fields:

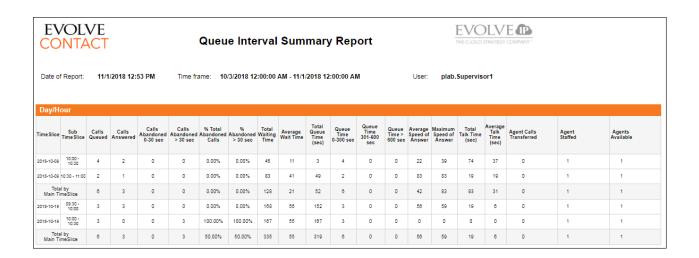

- Time Slice
- Sub Time Slice
- Calls Queued calls that entered the queue
- Calls Answered calls that entered the queue and were subsequently answered by an agent
- Calls Abandoned 0 X sec - the # of queued calls that abandoned during the Abandoned Time Threshold
- Calls Abandoned > X sec
 the # of queued calls

that abandoned after waiting > Abandoned Time Threshold

- % Total Abandoned Calls
 - # queued calls that eventually abandoned divided by the # queued calls
- % Abandoned > X sec the % of queued calls that abandoned during the Abandoned Time Threshold
- Total Waiting Time for all queued calls, this is the cumulative queue time plus offered time.

- Average Wait Time the Total Wait Time divided by the # of calls included in that calculation
- Total Queue Time (sec) for all queued calls, this
 is the sum of time spent
 in the queue (excluding
 ring time / offer time)
- Queue Time 0 X sec the # of queued calls where queue time plus ring & offer time is < Queue Time Range Threshold 1
- Queue Time X Y sec the # of queued calls
 where queue time plus
 ring & offer time is
 between Queue Time
 Range Threshold 1 and
 Queue Time Range
 Threshold 2
- Queue Time > Y sec the # of queued calls where queue time plus ring & offer time is > Queue Time Range Threshold 2
- Average Speed of
 Answer for all queued calls that were answered (and NOT placed on hold by an agent within the first 60 seconds of the call) this is the sum of their queue time plus ring & offer time

- Maximum Speed of Answer - for all queued calls, this is the longest amount of time an interaction waited in the queue
- Total Talk Time (sec) for all queued calls that
 were answered, this is
 the sum of talk time and
 hold time
- Average Talk Time (sec) for all queued calls that
 were answered, this is
 the (sum of talk time and
 hold time) divided by the
 # of queued calls that
 were answered
- Agent Calls Transferred the # of queued calls that
 were answered by an
 agent and subsequently
 transferred by the agent
 to any other destination
- Agent Staffed the # of agents that were not in an Offline state during the time period
- Agents Available the #
 of agents that had at
 least 1 second of Ready
 time during the time
 period

2.7 Customer Contact Center Reports

7.01 - Customer Experience

Parameters:

- Customer Database source database
- Time Zone customer's time zone by Default
- Manual Start Date
- Manual End Date
- Period
- Display Language
- Calculated Start Period
- Calculated End Period

- Business Process multi-value parameter
- Media Channel
- Report Type Choices are Cumulative, Hour Interval, or Quarter of an Hour Interval
- Summary Section Choices are None, Month to Date, and Year to Date
- Enable Pagination

- Inbound Interactions The number of inbound customer interactions that entered this BP
- Queued Interactions The number of interactions that entered the queue excluding any non-live calls (Callbacks or Preview Dialer calls) or any rescheduled (Callback) emails.
- Service Level The overall weighted % of inbound interactions that entered this BP, queued (across any channel), and achieved the intended service goal
- Callbacks Requested For any interactions that entered the queue, the number of callers that opted-in to a callback instead of waiting for an agent
- Voicemails Received For any interactions that entered the queue, the number of callers

- that left a voicemail instead of speaking with an agent
- Calls Transferred Externally The number of interactions transferred outside ECS for handling (to a 3rd party phone number)
- Calls Hung Up By Caller The number of callers that hung up before reaching any final destination
- Calls Disconnected By System The number of calls that were
 terminated by an activity in the
 call flow
- Average Speed of Answer For answered interactions, the average amount of time the interaction waited before an agent answered that includes queue time and ring time
- Calls Abandoned For any calls that entered the queue, the

- number of inbound customer calls where the caller hung up before reaching any other final destination
- Answer Rate The percentage of inbound interactions that entered the queue and were answered by an agent
- Average Talk Time The average amount of time that callers are on the phone actively speaking with an agent
- Max Delay For any interactions that entered the queue, the maximum amount of time that an interaction waited prior to reaching their final destination (answered, abandoned, or overflowed)
- Outbounds The number of outbound calls placed outside of the organization by agents on behalf of this BP (Outgoing External Interactions)
- Staffed Agents The number of agents that answered at least 1

- queued interaction during the report time period
- Emails Rescheduled For any emails that entered the queue, the number of emails that were manually scheduled by an agent to be answered at a later time
- Emails Handled The number of emails handled by an agent. This includes both queued emails and those rescheduled by an agent
- Emails Remaining The number of emails that remained in the queue at the end of the customer's day.
- Average Agent Response (Chat)
 - The average amount of time customers waited after they submitted a message in the chat window until the agent responded.

7.02 - Customer Experience Trends

Parameters:

- Customer Database source database
- **Time Zone** customer's time zone by Default
- Manual Start Date
- Manual End Date
- Period
- Display Language

- Calculated Start Period
- Calculated End Period
- Business Process multi-value parameter
- Media Type
- Period Delimiter choices are hour, day, week, or month. This determines the level of granularity of the x-axis.

Fields:

 Queued Calls - The number of calls that entered the queue excluding any non-live call (a caller didn't initiate that interaction) such as Callbacks or preview dialer calls.

- Service Level The percentage of inbound customer calls that entered the queue and were answered by an agent within the specified goal (seconds).
- Answer Rate The percentage of inbound customer calls that

- entered the queue and were answered by an agent
- Average Wrap-Up Time For answered calls, the average amount of time that agents spent in Wrap Up
- Average Hold Time For answered calls, the average amount of time that agents spent with callers on Hold
- Average Talk Time For answered calls, the average amount of time that agents were actively speaking with callers
- Average Speed of Answer For answered calls, the average amount of time a caller waited before an agent answered that includes queue time and ring time

- Queued Emails The number of emails that entered the queue excluding any "rescheduled" (or Callback) emails
- Backlog The number of emails that remained in the queue at the end of the customer's day
- Average Email Time The average amount of time an agent spends on an email response
- Queued Chats The number of web chats that entered the queue
- Average Chat Time The average amount of time an agent spends on an email response

7.03 - Contact Center Performance

Parameters:

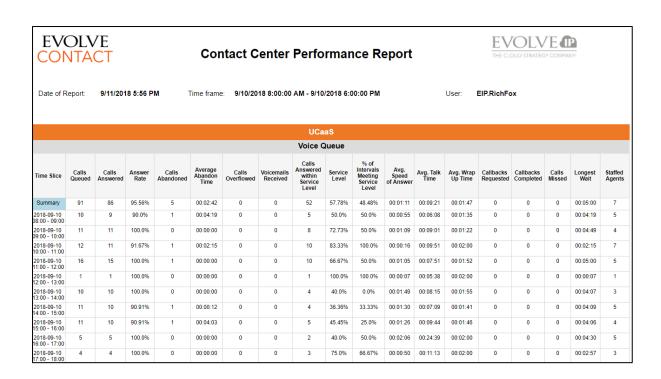

- Customer Database source database
- **Time Zone** customer's time zone by Default
- Manual Start Date
- Manual End Date
- Period
- Display Language
- Calculated Start Period
- Calculated End Period

- Calls Queued The number of calls that entered the queue excluding any non-live call (a caller didn't initiate that interaction) such as Callbacks or preview dialer calls.
- Calls Answered The number of queued calls that were answered by agent
- Answer Rate The percentage of inbound customer calls that entered the queue and were answered by an agent
- Calls Abandoned For any calls that entered the queue, the number of inbound customer calls where the caller hung up before reaching any other final destination
- Average Abandon Time For abandoned calls, the average amount of time a caller waited before hanging up
- Calls Overflowed For any calls that entered the queue, the number of inbound customer calls where the call reached a final destination other than the

- Business Process multi-value parameter
- Media Channel
- SL Goal % the target Service Level goal for each interaval.
- Report Type Choices are Cumulative, Hour Interval, or Quarter of an Hour Interval
- Summary Section Choices are None or Month to Date
- Enable Pagination
 - following: answered by an agent, abandoned by the customer, or became a callback request.
- Voicemails Received For any calls that entered the queue, the number of callers that left a voicemail instead of speaking with an agent
- Calls Answered Within Service
 Level The number of inbound
 customer calls that entered the
 queue and were answered by an
 agent within the specified goal
 (seconds)
- Service Level The percentage of inbound interactions that entered the queue and were answered by an agent within the specified goal (seconds)
- % of Intervals Meeting Service
 Level The percentage of the
 period intervals that achieved SL
 Goal parameter value
- Average Speed of Answer For answered calls, the average amount of time a caller waited before an agent answered that

- includes queue time and ring time
- Average Talk Time For answered calls, the average amount of time that agents were actively speaking with callers
- Average Wrap-Up Time For answered calls, the average amount of time that agents spent in Wrap Up
- Callbacks Requested For any calls that entered the queue, the number of callers that opted-in to a callback instead of waiting for an agent
- Callbacks Completed the number of Callbacks completed
- Calls / Emails / Chats Missed –
 the number of interactions there
 were delivered to a Ready agent
 that were not answered
- Longest Wait For any calls that entered the queue, the maximum amount of time that a caller waited prior to reaching their final destination (answered, abandoned, or overflowed)
- Staffed Agents The number of agents that answered at least 1 queued interaction during the report time period
- Emails Queued The number of emails that entered the queue (Select Agent step) during the specified time period. This excludes any "rescheduled" (or Callback) emails

- Emails Answered The number of emails that answered by agent
- Emails Overflowed For any emails that entered the queue, the number of inbound customer emails where the email reached a final destination other than the following: answered by an agent.
- Emails Rescheduled For any emails that entered the queue, the number of emails that were manually scheduled by an agent to be answered at a later time.
- Backlog The number of emails that remained in the queue at the end of the customer's day.
- Average Email / Chat Time The average amount of time an agent spends on an email response
- Chats Overflowed For any chats that entered the queue, the number of inbound customer chats where the chat reached a final destination other than the following: answered by an agent or abandoned by the customer.
- Average Agent Response (Chat)
 The average amount of time
 customers waited after they
 submitted a message in the chat
 window until the agent
 responded.

2.8 Calls Reports

8.01 – Calls Performance by Business Process and Destinations

Parameters:

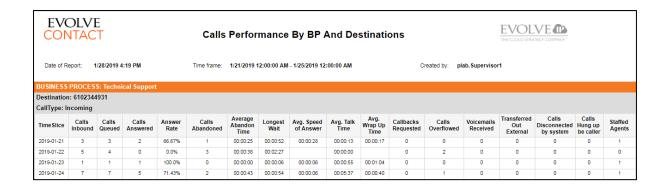

- Customer Database source database
- Time Zone customer's time zone by Default
- Manual Start Date and Time
- Manual End Date and Time
- Period
- Display Language

- Calculated Start Period
- Calculated End Period
- Business Process multi-value parameter
- Call Type
- Group By Destination
- Filter Destination
- Time Slice

- Calls Inbound Total inbound calls that entered the BP
- Calls Queued The number of calls that entered the queue excluding any non-live call (a caller didn't initiate that interaction) such as Callbacks or preview dialer calls.
- Calls Answered The number of queued calls that were answered by agent
- Answer Rate The percentage of inbound customer calls that entered the queue and were answered by an agent

- Calls Abandoned For any calls that entered the queue, the number of inbound customer calls where the caller hung up before reaching any other final destination
- Average Abandon Time For abandoned calls, the average amount of time a caller waited before hanging up
- Longest Wait For any calls that entered the queue, the maximum amount of time that a caller waited prior to reaching their final destination (answered, abandoned, or overflowed)
- Max Queued Max queued calls for this time slice
- Average. Speed of Answer For answered calls, the average amount of time a caller waited before an agent answered that
- Average Talk Time For answered calls, the average amount of time that agents were actively speaking with callers
- Average Wrap-Up Time or answered calls, the average amount of time that agents spent in Wrap Up
- Callbacks Requested For any calls that entered the queue, the number of callers that opted-in to a callback instead of waiting for an agent

- Calls Overflowed For any calls that entered the queue, the number of inbound customer calls where the call reached a final destination other than the following: answered by an agent, abandoned by the customer, or became a callback request.
- Voicemails Received For any calls that entered the queue, the number of callers that left a voicemail instead of speaking with an agent
- Transferred Out External Total calls that were transferred out to an external number
- Transferred Out Internal Total calls that were transferred to an internal entity (agent, BP or Channel)
- Calls Disconnected by System The number of calls that were
 terminated by an activity in the
 call flow
- Calls Hung up by Caller The number of callers that hung up before reaching any final destination
- Staffed Agents The number of agents that answered at least 1 queued interaction during the report time period

Field Definitions

	Interaction			
Field	Type(s)	Definition	Numerator	Denominator
Inbound	Callback, Chat,	the number of inbound customer		
Interactions	Email, Fax,	interactions that entered this BP		
	Telephony			
Callbacks	Business	the number of callbacks that		
Completed	Process:	were successfully handled		
	Telephony			
Calls	Business	the number of callers that hung		
Abandoned	Process:	up before reaching any final		
	Telephony	destination		
Calls	Business	the number of calls that were		
Disconnected	Process:	terminated by an activity in the		
	Telephony	call flow		
Calls Not	Business	the number of calls received that		
Queued	Process:	never entered a Queue step		
	Telephony			
Outbound	Business	the number of outbound calls		
Calls	Process:	placed outside of the		
	Outgoing	organization by agents on behalf		
	External	of this BP (Outgoing External		
		Interactions)		
Service Level	Business	the overall weighted % of	# of interactions	# of interactions
	Process:	inbound interactions that	(across all inbound	that were queued
	Incoming	entered this BP, queued (across	interaction types)	minus any
		·	that queued and	interactions that

		any channel), and achieved the intended goal	were answered within the defined goal	are excluded based upon defined criteria associated with each channel
Calls Transferred Externally	Business Process: Telephony	the number of interactions transferred outside ECS for handling (to a 3rd party phone number)		
Answer Rate	Voice Queue: Telephony	the percentage of inbound customer calls that entered the queue and were answered by an agent	the number of inbound customer calls that entered the queue (minus any calls that are considered service level exclusions) and were answered by an agent	the number of inbound customer calls that entered the queue (minus any calls that are considered service level exclusions)
Average Abandon Time (AAT)	Voice Queue: Telephony	for abandoned calls, the average amount of time a caller waited before hanging up	the total amount of wait time in the queue for inbound customer calls that entered the queue and abandoned prior to reaching an agent (minus the wait time for any calls that are considered service level exclusions)	the number of inbound customer calls that entered the queue and abandoned prior to reaching an agent (minus any calls that are considered service level exclusions)
Average Hold Time	Voice Queue: Telephony	for answered calls, the average amount of time a caller was placed on hold by an agent	for answered calls that were placed on hold by an agent, the total amount of hold time those callers experienced	the number of answered calls that were placed on hold by an agent
Average Speed of Answer (ASA)	Voice Queue: Telephony	for answered calls, the average amount of time a caller waited before an agent answered that includes queue time and ring time	the total amount of time that answered calls waited (queue time + ring time)	the number of answered calls
Average Talk Time (ATT)	Voice Queue: Telephony	the average amount of time that callers are on the phone actively speaking with an agent	the total amount of time that answered calls were actively connected to an agent and not placed on hold	the number of answered calls

Callbacks	Voice Queue:	the number of telephony		
Completed	Callback,	callbacks that were completed		
Callbacks	Telephony Voice Queue:			
	Telephony	for any calls that entered the		
Requested	гетерпопу	queue, the number of callers that		
		opted-in to a callback instead of		
Calls	Voice Queue:	waiting for an agent for any calls that entered the		
Abandoned	Telephony	queue, the number of inbound		
Abandoned	Гетерпопу	customer calls where the caller		
		hung up before reaching any		
		other final destination		
Calls	Voice Queue:	for any calls that entered the		
Overflowed	Telephony	queue, the number of inbound		
Overnowed	relephony	customer calls where the call		
		reached a final destination other		
		than the following: answered by		
		an agent, abandoned by the		
		customer, became a voicemail,		
		or became a callback request.		
Calls Queued	Voice Queue:	the number of calls that entered		
	Telephony	the queue excluding any non-		
		live call (a caller didn't initiate		
		that interaction) such as		
		Callbacks that were requested		
		(to avoid double counting) or		
		preview dialer calls.		
Final	Voice Queue:	For any calls that entered the		
Destination	Telephony	queue, the following events are		
		considered a final destination for		
		that interaction:		
		* answered by an agent		
		* abandoned by the customer		
		* becomes a callback request		
		* the interaction is transferred		
		outside ECS for handling (to a		
		3rd party phone number such as		
		an outsourcer)		
		* customer leaves a voicemail		
		message		
		* interaction is disconnected by the call flow		
Larage at Mait	Vaina Overva			
Longest Wait	Voice Queue:	for any calls that entered the		
	Telephony	queue, the maximum amount of time that a caller waited prior to		
		reaching their final destination		
		(answered, abandoned, or		
		overflowed)		
Service Level	Voice Queue:	the percentage of inbound	the number of	the number of
(SL)	Telephony	customer calls that entered the	inbound customer	inbound
(3L)	гегерпопу	castomer cans that efficied the	IIIDOUIIU CUSTOIIIEI	inbound

% of Intervals	Voice Queue:	queue and were answered by an agent within the specified goal (seconds) the percentage of 15 minute	calls that entered the queue (minus any calls that are considered service level exclusions) and were answered by an agent in the specified goal (seconds) the number of 15	customer calls that entered the queue (minus any calls that are considered service level exclusions) the number of 15
Meeting Service Level	Telephony	intervals where the Service Level goal was achieved	minute intervals where a queued call was received and the Service Level goal was met	minute intervals where a queued call was received
Staffed Agents	Voice Queue: Telephony	the # of agents that answered at least 1 queued call during the report time period		
Voicemails Received	Voice Queue: Telephony	for any calls that entered the queue, the number of callers that left a voicemail instead of speaking with an agent		
Answer Rate	Chat	the percentage of inbound customer chats that entered the queue and were answered by an agent	the number of inbound customer chats that entered the queue (minus any chats that are considered service level exclusions) and were answered by an agent	the number of inbound customer chats that entered the queue (minus any chats that are considered service level exclusions)
Average Agent Response	Chat	the average amount of time customers waited after they submitted a message in the chat window until the agent responded	the total amount of time that answered chats were "idle" from the time the customer sent a chat message until the agent responded	the total number of messages sent by customers inside a chat session (each chat session will typically have multiple messages sent by the customer) for all answered chat sessions
Average Chat Time	Chat	the average amount of time an agent spends on a chat interaction	the total amount of time that answered chats were "worked" by an agent from the time the chat interaction was delivered to an	the number of answered chats

			agent until the chat session ended	
Average Speed of Answer	Chat	the average amount of time from when an chat was received from the customer until an agent responded	the total amount of time that answered chats waited from the time the customer chat was received until an agent chat response was sent	the number of answered chats
Chats Abandoned	Chat	for any chats that entered the queue, the number of inbound customer chats where the customer terminated their chat session before reaching their destination		
Chats Overflowed	Chat	for any chats that entered the queue, the number of inbound customer chats where the chat reached a final destination other than the following: answered by an agent or abandoned by the customer.		
Queued Chats	Chat	the number of chats that entered the queue		
Longest Wait	Chat	for any chats that entered the queue, the maximum amount of time that a customer waited prior to receiving a chat response from an agent OR abandoned prior to receiving an agent response OR become a callback.		
% of Intervals Meeting Service Level	Chat	the percentage of 15 minute intervals where the Service Level goal was achieved	the number of 15 minute intervals where a queued chat was received and the Service Level goal was met	the number of 15 minute intervals where a queued chat was received
Service Level	Chat	the percentage of inbound customer chats that entered the queue and an agent responded within the specified time goal	the number of inbound customer chats that entered the queue and an agent sent a response within the specified time goal	the number of inbound customer chats that entered the queue
Staffed Agents	Chat	the # of agents that answered at least 1 queued chat during the report time period		

Average Email Time	Email	the average amount of time an agent spends on an email response	the total amount of time that answered emails were "worked" by an agent from the time the email interaction was delivered to an agent until they sent a response	the number of answered emails
Average Speed of Answer	Email	the average amount of time from when an email was received during business hours from the customer until an agent responded	the total amount of time that answered emails waited from the time the customer email was received until an agent email response was sent	the number of answered emails
Emails Remaining	Email	the number of emails that remained in the queue at the end of the customer's day (based upon business hours)	the number of emails that remained in the queue waiting for an agent response when the BP closed	
Emails Handled	Email	the number of emails handled by an agent. This includes both queued emails and those rescheduled by an agent.		
Emails Overflowed	Email	for any emails that entered the queue, the number of inbound customer emails where the email reached a final destination other than the following: answered by an agent.		
Emails Rescheduled	Email	for any emails that entered the queue, the number of emails that were manually scheduled by an agent to be answered at a later time		
Longest Wait	Email	for any emails that entered the queue, the maximum amount of time that a customer waited prior to receiving an email response from an agent		
Queued Emails	Email	the number of emails that entered the queue during the specified time period. This excludes any "rescheduled" (or Callback) emails.		

Service Level	Email	the percentage of inbound customer emails that entered the queue and an agent sent an email response within the specified time goal	the number of inbound customer emails that entered the queue and an agent sent an email response within the specified time goal	the number of inbound customer emails that entered the queue
Staffed Agents	Email	the # of agents that answered at least 1 queued email during the report time period		
Busy Time	Agent	Offer Time + Talk Time + Chat Time + Email Time + Fax Time + Wrap-up Time + Hold Time (overlapping interactions will not be accumulated)		
Login Time	Agent	Handle Outgoing Time + Break Time + Back Office Time + Idle Time + Busy Time		
Idle Time	Agent	Agent is in the Ready State and is waiting to receive an interaction		
Occupancy	Agent	((Busy Time divided by (Busy Time + Idle Time))*100		
Handle Time	Agent	Talk Time + Chat Time + Email Time + Fax Time + Wrap Up Time + Hold Time		
Interaction Time	Agent	Offer Time + Talk Time + Chat Time + Email Time + Fax Time + Wrap-up Time + Hold Time (overlapping interactions are accumulated)		Overlapping interactions will accumulate Interaction Time. If an agent is simultaneously, working on multiple interactions, Interaction Time is the sum of the time spent on each individual interaction. The Interaction Time could therefore exceed the agent's Login Time for that period.

4 Interaction Types

Interaction		Media		
Туре	Description	Types	Direction	Additional
Any	Umbrella term that includes all Media Types and Directions	All	Incoming, Outgoing	
Callback	Callback can include OR an inbound voice interaction that either became a callback because the caller opted-in to a callback while in a queue OR an inbound voice interaction became a callback because the agent spoke with the caller and manually scheduled a callback OR Inbound interaction that begins as a web callback request OR an email that is manually rescheduled by the agent for a later response	Telephony , Email	Incoming, Outgoing	Customer can put a link on their website where the customer enters their name and phone number and description and optionally BP. That interaction will immediately be sent to the BP for processing. A Web Callback requests is a Telephony media type.
Callback Telephony	A subset of Callback interactions that only include those for the Telephony media type	Telephony	Incoming	
Campaign	An outbound Campaign interaction initiated by the Dialer.	Telephony	Outgoing	Same as Campaign Telephony
Campaign Telephony	An outbound voice interaction initiated by the Dialer	Telephony	Outgoing	Same as Campaign
Chat	an inbound web chat interaction initiated by a customer OR an internal chat between members of the organization	Chat	Incoming, Outgoing	Outbound chats today would be an outbound internal chat only.

E-mail	an inbound email interaction initiated by a customer OR an outbound response email from an agent to a customer	Email	Incoming, Outgoing	
Fax	Business Process: Telephony	Fax	Incoming	Same as Incoming Fax today. The system expects all faxes to be delivered via email. There is no inherent FAX capability in the system.
Incoming	an inbound fax interaction initiated by a customer	All	Incoming	
Incoming Chat	Umbrella term that includes all Incoming interactions across all media types	Chat	Incoming	
Incoming Email	an inbound web chat interaction initiated by a customer	Email	Incoming	
Incoming Fax	an inbound email interaction initiated by a customer	Fax	Incoming	
Incoming Telephony	an inbound call interaction initiated by a customer	Telephony	Incoming	
Internal Messaging (Chat)	a chat interaction between 2 agents	Chat	Incoming, Outgoing	
Outgoing External Mail	an outbound email that is sent to an external address	Email	Outgoing	
Outgoing External Telephony	an outbound call originated by an agent to a number that is external to the organization	Telephony	Outgoing	
Outgoing Internal Telephony	an outbound call originated by an agent to a number that is internal to the organization	Telephony	Outgoing	
Outgoing External	an umbrella term that includes all outgoing interactions across media types sent external to the organization	Telephony , Email	Outgoing	
Outgoing Internal	an umbrella term that includes all outgoing interactions across media types sent internally within the organization	Telephony , Chat	Outgoing	

Telephony	a voice interaction that entered the Business Process. This includes every voice interaction - including AA & IVR & queue & dialer functions & manual outgoing calls initiated by an agent.	Telephony	Incoming, Outgoing	
Transferred	any interaction that is transferred to a secondary destination manually by an agent OR automatically during the call flow	All	Incoming, Outgoing	
Transferred Chat	a chat interaction that is transferred to a secondary destination manually by an agent OR automatically during the call flow	Chat	Incoming	
Transferred E-mail	an email interaction that is transferred to a secondary destination manually by an agent OR automatically during the call flow	Email	Incoming	
Transferred Fax	a fax interaction that is transferred to a secondary destination manually by an agent OR automatically during the call flow	Fax	Incoming	
Transferred In Telephony	Call transferred into this BP from another BP	Telephony	Incoming	
Transferred Out Telephony	Call transferred from this BP to another BP	Telephony	Outgoing
