Training Considerations for Managers

Introduction

EVOLVE IP
WORK ANYWHERE™

Welcome to Evolve IP Training! On this page you will find information and best practices for anyone managing training within an organization.

Evolve IP Client Training Center

The Evolve IP Client Training Center is our Learning Management System (LMS) designed specifically for our clients and their training needs. In the LMS, you'll find on-demand training courses and accompanying knowledge checks for a variety of Evolve IP provided services. This is included as part of our free "public training" offering available to all Evolve IP clients. Once your organization is set up in the Client Training Center, we can pre-load your users or allow them to self-register. Users will be able to browse the entire catalog of Evolve IP training courses and self-enroll. However, we can also work with your team to assign specific training to users to ensure they receive the training they need.

Please watch the video below for an overview of the Evolve IP Client Training Center:

Ready to get started in the Evolve IP Client Training Center? Please contact training@evolveip.net to work with one of our Training Specialists and set up training for your organization.

Online Scheduling Tool - YouCanBookMe

Evolve IP clients who have purchased private training sessions can use our online scheduling tool to reserve their preferred date and time. Our YouCanBookMe scheduling tool is linked with our Training Specialists' calendars, so our clients can see our real-time availability when scheduling training.

Please watch the video below for an overview of the YouCanBookMe scheduling tool:

If you have purchased a training package as part of an implementation project, your Project Manager will make sure a Training Specialist is involved in your project to schedule a Training Kick-Off Call. Otherwise, if you are interested in purchasing training please contact your CRM or training@evolveip. net to discuss available options.
