Evolve Anywhere with Webex

For training resources **Click here!**

Small businesses, mid-market and enterprise organizations have different needs...features that are more than the traditional Phone System can provide alone, along with world-class knowledge and service. Evolve IP, a leading Webex by Cisco, provides a collaboration integration with our Cisco voice platform and Evolve IP developed apps for advanced features that all businesses require - now and in the future.

Adding enterprise PBX with PSTN dial tone and advanced features, contact center functionalities and our 24x7x365 US based support enables businesses to take their team productivity and user experience to a new level. We do this with the Webex app that enables us to continuously provid additional features on the app that our voice platform has too offer.

A better way to work/ or Your new collaboration experience has arrived

Enjoy everything you love about UC One Communicator and so much more with all the tools to empower your teams to collaborate all in one place, from anywhere.

- **Crystal clear calling.** With native in-app voice and video calling, you can make and receive calls with the classic calling features you rely on daily.
- **Messaging the way it's meant to be.** Quickly contact teammates, internal or external, using chat for direct messages or in a group space. Enjoy the latest messaging features such as @mentions, emojis and gifs, and threaded message support!
- **Hassle-free video conferencing.** Host or join secure HD meetings on any device, anywhere, and keep your data and privacy protected. Share your desktop, application, or file during your meeting or pop up a virtual whiteboard and have a brainstorming session.
- **Team collaboration tools keep you moving forward.** Create a virtual workspace where you can get work done with others one-to-one or as teams. Chat, meet, share files and link your productivity apps all within your virtual space to keep your work and conversations organized.**How can I prepare for my upgrade?**

There are three actions you can take to prepare for the upgrade:

1. Make sure you have your UC One Communicator whic is your **user ID and application password** handy as you will need them to register for Evolve Anywhere with Webex.
2. Review your message history and **save any important chats** as they will not carry over when you upgrade **(LEGACY UC ONE USERS ONLY IF MIGRATING FROM UC ONE)**
3. Save important external **contacts** you've added to your Contacts list as you will want to manually enter them after the upgrade. **(LEGACY UC ONE USERS ONLY IF MIGRATING FROM UC ONE)**
