

Webex End User - U Flow Steps

This Page is for existing UC One end users migrating to Webex (Non Admin)

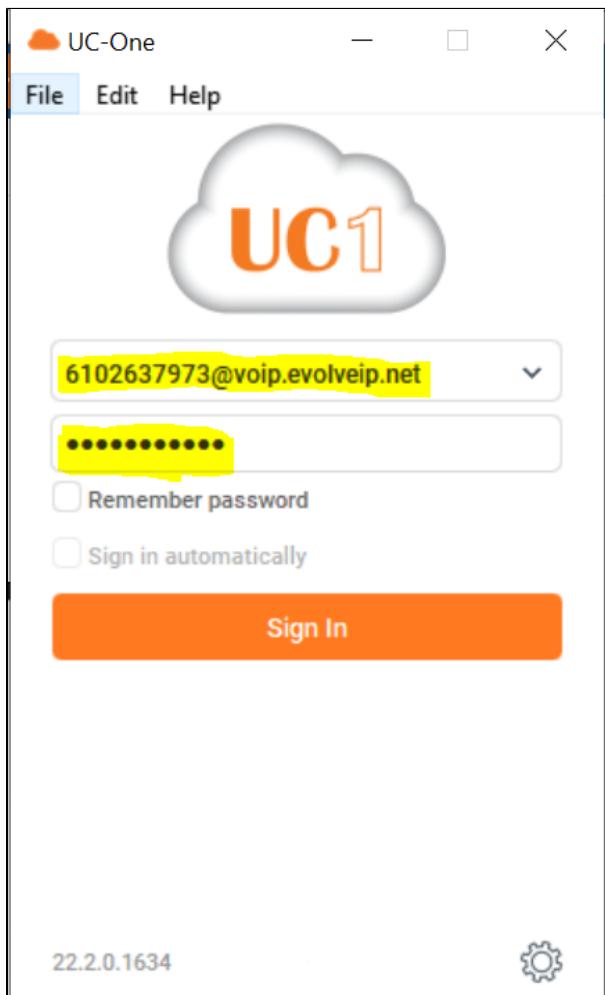

This page is for Platform B, C, D, F & G Customers ONLY

Step 1:

You will be required to add your company email address and verify it before using Evolve Anywhere with Webex. To set up your company email address [click here!](#) and follow the below steps. This link will direct you to the email verification page.

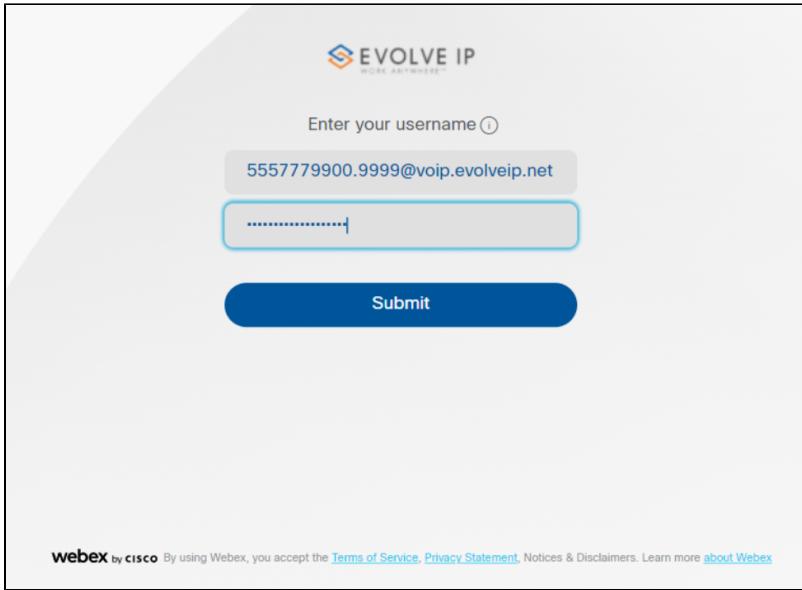

On this Page please enter your **OSSmosis User ID, This Must include "@voip.evolveip.net"**

*****This is the same log in Information you currently use to log into your UC One application and your application password. This can be reset in OSSmosis by your admin.*

Step 2:

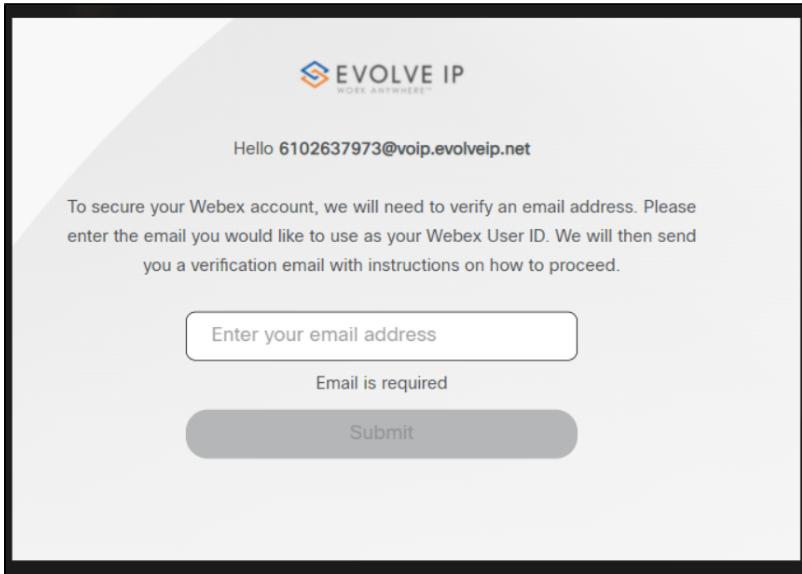

now that you have your OSSmosis User ID, you will need to enter it here.

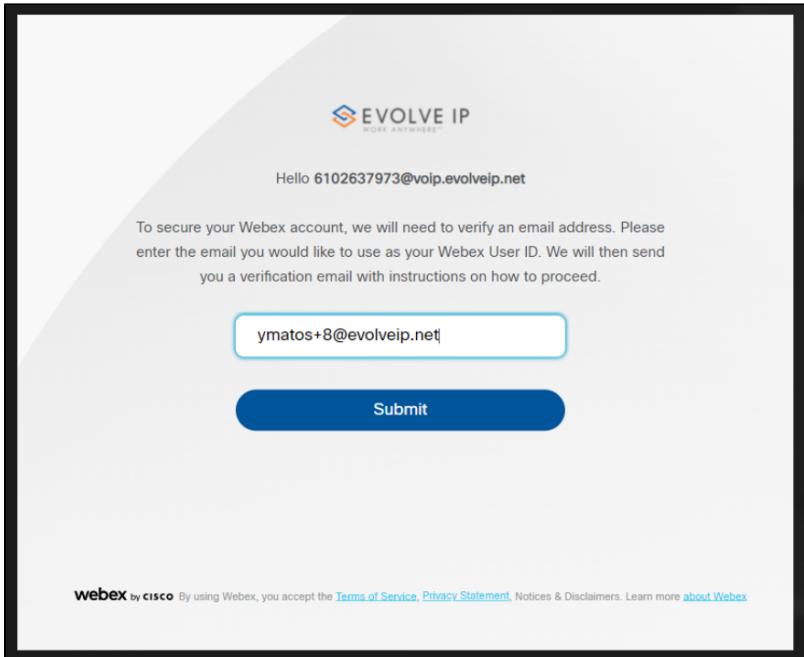

The image shows a login page for Evolve IP. At the top is the Evolve IP logo with the tagline "WORK ANYWHERE". Below it is a text input field labeled "Enter your username" with a help icon. The input field contains the email address "5557779900.9999@voip.evolveip.net". Below the input field is a password input field with a redacted password. At the bottom is a blue "Submit" button. At the very bottom of the page, there is a small note: "webex by cisco By using Webex, you accept the [Terms of Service](#), [Privacy Statement](#). Notices & Disclaimers. Learn more [about Webex](#)".

Step 3:

Once you enter your OSSmosis User ID you will be redirected to enter your company email

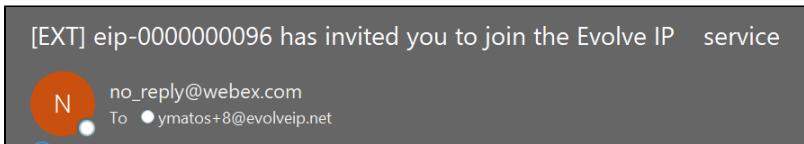

The image shows a step in the process where the user is asked to verify their email address. The Evolve IP logo is at the top. Below it, a greeting says "Hello 6102637973@voip.evolveip.net". A message explains that to secure the Webex account, the user needs to verify an email address. It asks them to enter the email they want to use as their Webex User ID. A text input field is provided for this, with the placeholder "Enter your email address". Below the input field is a red error message: "Email is required". At the bottom is a grey "Submit" button.

Step 4:

Once you enter your email address you will receive an email from no_Reply@webex.com

Here you can click on Join now where you will get email and user ID Validation.

Your calling service just got an upgrade

Welcome to Evolve IP

You're invited! Your team can now use Evolve IP to communicate and collaborate in one place, from anywhere, with a seamless calling, messaging and meeting experience.

Ready to join them?

[Join now](#)

The Evolve IP Team

Need help? [Contact us](#).

Step 5:

Once you verify both you can sign into your downloaded Webex application.

- Email Validated
- Provisioned

Congratulations. Your email address has been verified.

webex by cisco By using Webex, you accept the [Terms of Service](#), [Privacy Statement](#), Notices & Disclaimers. Learn more [about Webex](#)

Step 6:

If you have not downloaded Webex before the email verification, you will need to download it now. If you do not have admin access to your PC please contact your IT administrator.

Webex

 [Download for Windows \(64 bit\)](#)

Also available here:

 [Download for macOS \(Intel chip\)](#)

 [Download for macOS \(M1 chip\)](#)

 [Download for Windows \(32 bit\)](#)

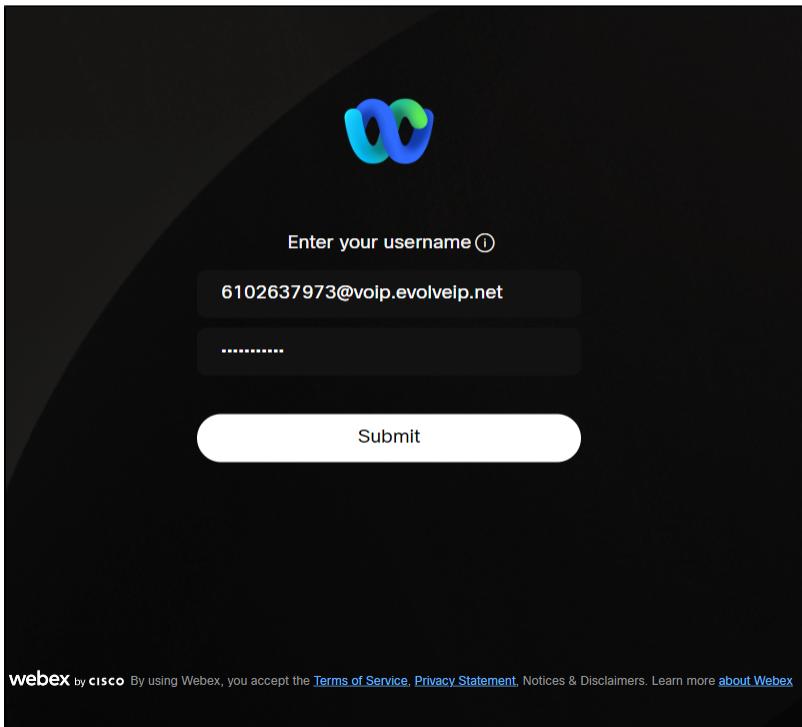

Step 7:

After confirming download enter your company email address. Since you have already verified the email you will be prompted for your OSSmosis User ID and application password after.

Step 8:

Enter your OSSmosis User ID and application password

Step 9:

You are now signed in to your Evolve Anywhere with Webex application!!!
