

ODiN Cloud Portal Training

Introduction

The ODiN Cloud Administrator Portal allows IT Administrators and other authorized personnel to control legacy AiTech services across your entire organization. Based on your configuration, this may include the ability to manage your users' settings, reset passwords, update your time and holiday schedules, manage your hunt groups and auto attendants, and run reports.

On-Demand Training

Administrator Training

[CLICK HERE](#) for a self-paced Admin Portal Tutorial. This tutorial walks through the features and control available to administrator users to control end users and services over the entire enterprise. Use the menu on the left to selectively find your topic or just start at the top and work your way through all topics.

End User Training

[CLICK HERE](#) for a self-paced End User Tutorial. This tutorial walks through the features and control available to individual users. Use the menu on the left to selectively find your topic or just start at the top and work your way through all topics.
