

# Voicemail

Voicemail is also known as a unified message license that allows a Broadsoft service (Auto Attendant, Hunt Group, Call Center Queue, or User) to have voice messages stored on the voice portal platform and accessible via a handset or other Evolve endpoint such as UC One. Voice messages can also be delivered via email as a .wav file attachment.

An additional unified messaging license is \$3/month

The default voicemail-box size is 30 minutes

Additional voice portal storage can be purchased for \$2/month for an additional 100 minutes. Up to a maximum of 900 minutes.
