DaaS

Evolve IP DaaS frees businesses from the endless cycle of purchasing, supporting, upgrading and ultimately replacing local PCs by providing a untethered "virtual" work space that can be accessed from anywhere, at any time, on a variety of devices and for a predictable monthly fee. By leveraging desktop virtualization from VMware, IT managers are freed from the need to "touch" each desktop to fix problems and deliver new applications, saving staff time and keeping employees productive.

DaaS Technical Library

- DaaS Support
- DaaS Hardware
- DaaS Implementation and Training
- MS Teams Guidance for Virtual Environments
