Quick Reference Guide: [GoIntegratorQuickReferenceGuide-BroadWorks-3-0-EN.PDF](#)

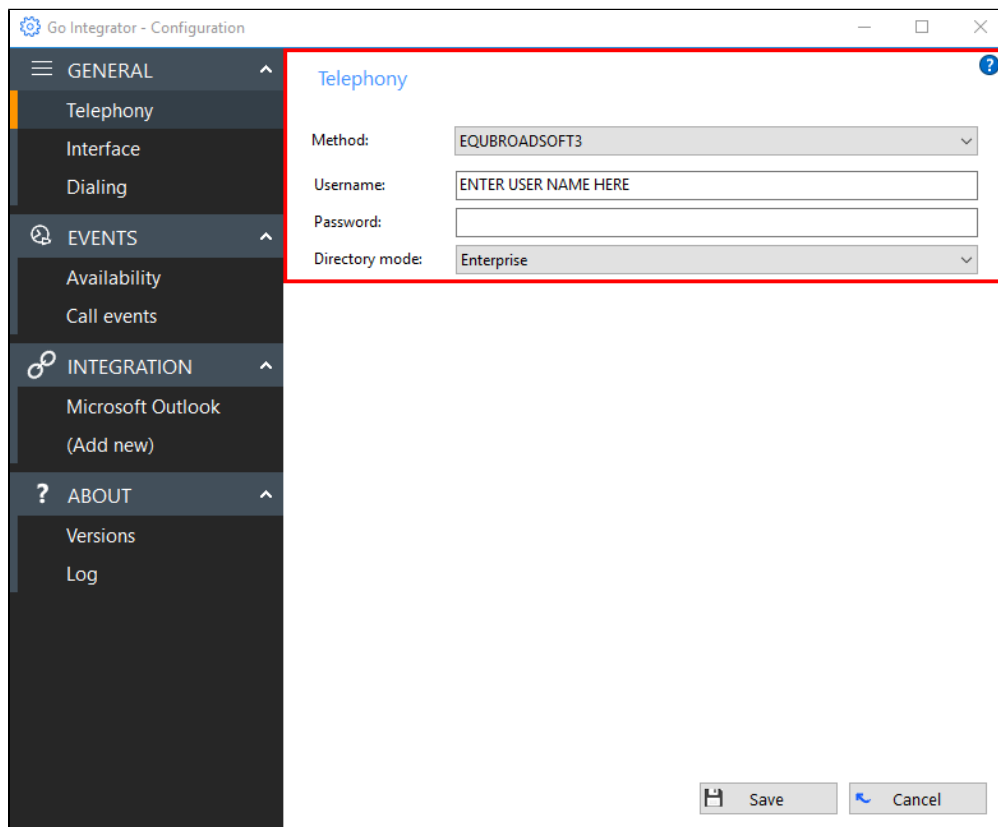

Details: Overview of the settings, features, and functionality available on this upgraded application. The application is VERY similar to the last build, BUT there are many updates to the overall look and feel i.e. User Interface (UI). *NOTE: Details on Presence on Pg. 7-8*

Details on installation:

-The application requires local administrator rights to install successfully.

-The username and password are entered in the configuration screen.

NOTE: This is your Evolve IP user id/phone number and assigned application password.

The screenshot shows the 'Go Integrator - Configuration' window. The left sidebar contains a menu with the following categories: GENERAL (with sub-items: Telephony, Interface, Dialing), EVENTS (with sub-items: Availability, Call events), INTEGRATION (with sub-item: Microsoft Outlook (Add new)), and ABOUT (with sub-items: Versions, Log). The 'Telephony' tab is selected and highlighted with a red border. The main content area for the 'Telephony' tab contains the following fields: 'Method' (a dropdown menu set to 'EQUUBROADSOFT3'), 'Username' (a text input field with the placeholder 'ENTER USER NAME HERE'), 'Password' (a text input field), and 'Directory mode' (a dropdown menu set to 'Enterprise'). At the bottom right of the window are 'Save' and 'Cancel' buttons.
