

# Adding Authorized Contacts with Clearlogin

**Authorized contacts** are individuals within your organization that you have authorized to contact Evolve IP with technical, billing-related or administrator-related issues. They can do so by

- ...using The Evolve IP Help Center
- ...emailing [support@evolveip.net](mailto:support@evolveip.net)

Please follow the easy instructions provided below to learn how to add and remove authorized contacts.

- [Adding Authorized Contacts](#)
- [Adding Authorized Contacts from the Access Rules screen](#)
- [Removing Authorized Contacts](#)

---

## Adding Authorized Contacts

You can edit the user's Access Rules from their user account. This will require Clearlogin administrator access. This is a specific URL for your company, for example "[yourcompanyname.clearlogin.com](#)."

### Don't know your company's Clearlogin URL?

If you don't know the URL to your company's Clearlogin instance, please review [Accessing your company's Clearlogin URL](#)

### If the user doesn't exist...

A user must exist within Clearlogin in order for them to become an Authorized Contact. If the user doesn't exist yet please follow [Adding Users to Clearlogin](#) and then come back to this page.

- 
1. Login to your Clearlogin dashboard.
  2. Click the padlock button located at the right-hand side of the Clearlogin site ribbon.

- a. You can also access Clearlogin administration directly by going to [admin.clearlogin.com](http://admin.clearlogin.com).

3. Go to **User Profiles**, locate the user and click the Edit button to edit their account

4. The "Editing" page will show. Scroll down until you see the "Access Rules" section

5. Click in the "Access Rules" field to see a list of default Access Rule options, and choose "Service User." Then click the **Update Access Rules** button.

6. Next, scroll to the top of the page and click on the **Update User** button. *This step is required.*

7. The user's account will now show Service User as an additional access rule.

8. Instruct your user/authorized contact to login to their Clearlogin dashboard.

Once this is completed the user should have access to the **Help Center** tile which will allow them to submit support tickets via **The Evolve IP Help Center**. They can also submit requests by emailing [support@evolveip.net](mailto:support@evolveip.net).

#### IMPORTANT: NEW USERS

If this is a new user then they must still set their password to begin using their Clearlogin account. Please review [Adding Users to Clearlogin](#) and continue to Step 3.

## Adding Authorized Contacts from the Access Rules screen

### Security > Access Rules

You can also add Access Rules to contacts from Security > Access Rules.

1. Login to your Clearlogin dashboard. This is a specific URL for your company, for example "[yourcompanyname.clearlogin.com](#)."
2. Click the "Admin Site" button at the top of the screen (this will only show for administrators)
3. Go to Security > Access Rules

4. Scroll down to "System"

5. Click the Edit Access Rule button for the group that you wish to edit.
6. Add your Authorized contacts.

7. Click "Update Access Rule."
8. Now, go to **User Profiles**, locate the user and click the Edit button to edit their account

9. Click on the **Update User** button. *This step is required.*

A screenshot of a web form titled "Editing - larryldavid@supporttraininginc.com's Profile". The form contains fields for "Email" (larryldavid@supporttraininginc.com), "Full Name" (Larry L David), "Phone Number", "Role" (a dropdown menu set to "User"), and "Avatar" (a "Choose File" button). Below these fields is a grey silhouette icon for an avatar. At the bottom right of the form is a green button labeled "Update User", which is pointed to by a red arrow.

10. Instruct your user/authorized contact to login to their Clearlogin dashboard ([yourcompanyname.clearlogin.com](http://yourcompanyname.clearlogin.com)) to finish the process.

They should now have access to the Help Center tile to access [The Evolve IP Help Center](#).

## Removing Authorized Contacts

You can remove contacts from a User's profile by simply clicking the "x" symbol next to the Access Rule that you wish to remove.
