## Overview

If an application does not require a sign in, you can add a Bookmark App to your user's dashboard. This comes in handy for vendor websites, general use sites like search engines, news sites, or social media sites. You can also add your own corporate website to a user's dashboard.

If you are unable to find your app in the catalog, you can create a custom Bookmark app below.

## Steps to Add a Bookmark App

- Sign into the **Clearlogin Admin Console**: <https://admin.clearlogin.com>
- Select **Apps** from the left-hand navigation bar
- Select **New App Connection**

- At the bottom of the page in the **Custom Connections** section, select the **Password Manager App**

- Using the below tables as a reference, enter the required information and then select **Create Bookmark App**

## General Settings

Setting Name	Description
Display Name	This name will be shown at the bottom of the app tile in the user's dashboard.

Icon	<p>Upload a custom image file, which will be used in the app tile in the user's dashboard.</p> <ul style="list-style-type: none"> <li>• Canvas Size: 834px X 834px (larger images will be shrunk down)</li> <li>• Supported Formats: JPEG, GIF, PNG</li> </ul> <p>To properly align the app's logo/icon within the 834 x 834 canvas size, create the following white space around the logon/icon:</p> <ul style="list-style-type: none"> <li>• Top - 97px</li> <li>• Right Side: 154px</li> <li>• Bottom - 252px</li> <li>• Left Side - 154px</li> </ul>
