

Microsoft Online

The Microsoft CSP (Cloud Solution Provider) program allows Evolve IP to resell, support and bill for Microsoft cloud services including Office 365, Skype for Business and Exchange Online. Evolve IP is uniquely positioned to target another point of entry into earning more services customers are moving to the cloud. In addition, Evolve IP has achieved certification that minimal providers in the world have achieved, which is the ability to offer Office 365 in a cloud computing environment (DaaS) called Shared Computer Activation (SCA).
